Strategies Towards Sustainable Life and Global Challenges

Youth and students are one component in society that can play an important role and continue the relay of Indonesia's sustainable development in the future. Success in building education will significantly contribute to the achievement of overall national development goals. Indonesia's development plan also mentions Sustainable Development Goals (SDGs).

The SDGs describe a universal agenda that applies and must be implemented by all countries, including Indonesia. The 17 goals are: No Poverty; Zero Hunger; Good Health and Well-being; Quality Education; Gender Equality; Clean Water and Sanitation; Affordable and Clean Energy; Decent Work and Economic Growth; Industry, Innovation and Infrastructure; Reduced Inequality; Sustainable Cities and Communities; Responsible Consumption and Production; Climate Action; Life Below Water; Life on Land; Peace and Justice Strong Institutions; and Partnerships to achieve the Goal. Based on these development goals, youth is one of the main targets expected to receive a quality education. However, as the 'fuel' for the nation's progress, the role of youth is not only as a beneficiary of development but also as a development actor.

The number of Indonesian who get the opportunity to obtain an education abroad can play a role by contributing to Indonesia. One of the countries that become the study destination is Taiwan. The number of Indonesian students in Taiwan is recorded to be in the first rank compared to other countries, which reached 14,489 students in 2019.

One form of implementing the contribution to Indonesia's development from Indonesian students studying in Taiwan is the annual scientific forum, namely the Indonesian Scholar Scientific Summit. This annual scientific meeting becomes an opportunity to publish the results of creativity, knowledge, technology, and human and financial resources to help achieve the Sustainable Development Goals. This scientific forum is one of the actual roles of Indonesian students and researchers in Taiwan.

The activities of this scientific forum will also be held together with a meeting of the PPI Taiwan Alumni Association and an annual meeting of the chairman of the Indonesian Student Association from all cities and campuses in Taiwan. It is expected to bridge the cooperation between Indonesian students, institutions, and agencies in Taiwan and Indonesia. Hopefully, it also can be one of the prominent international scientific forums.

Committee of I3S 2022

Editorial Boards

Editor-in-Chief

Eny Sofiyatun (Chang Gung University, Taiwan)

Editors

Fasty Arum Utami (Taipei Medical University, Taiwan)

Josephine Nanda (Taipei Medical University, Taiwan)

Raras Kirana Wandira (National Central University, Taiwan)

Rita Wiryasaptra (Tunghai University, Taiwan)

Steering Committee & Reviewers

Miftakhul Jannatin (National Yangming Chiao Tung University, Taiwan)

Yoyok Amiruddin (National Ping Tung University, Taiwan; Universitas Islam Malang, Indonesia)

Sherlis Oktaviani (Taipei Medical University, Taiwan)

Syazwani Dzolin (Universiti Teknologi Malaysia, Johor Bahru, Malaysia)

Ma Weixiang (National Yangming Chiao Tung University, Taiwan)

Suchita Paul (Indian Institute of Technology, Kanpur, India)

Le Duc Huy (Taipei Medical University, Taiwan; Hue University, Hue, Vietnam)

Belen Ruiz Lezcano (Taipei Medical University, Taiwan)

Nancy Runnan Li (Taipei Medical University, Taiwan)

Keynote Speaker

Muhyiddin, S.Sos, M.Sc, MSE (Head of Center for Development Policy, Indonesian Ministry of Manpower)

Speakers

Prof. Badri Munir Sukoco, SE, MBA, Ph.D. (Director of Airlangga University Post-graduate School)

Ravinder Singh (Director, DEG Product Engineering of Micron Technology, Taiwan)

Prof. dr. Laksono Trisnantoro, M.Sc, Ph.D. (Special Staff at Indonesian Ministry of Health)

Papers

WEB-BASED ONLINE MOTORBIKE DEALING SYSTEM

Damara Gilang Muraharami, Sandy Darmowinoto, Muhammad Yeza Baihaqi

ONLINE METHOD AS AN EMERGENCY SOLUTION FOR STUDENT'S COMMUNITY ENGAGEMENT PROGRAMS DURING THE COVID-19 PANDEMIC IN INDONESIA
